Also included are certain well and brine operations, and primary preparation plants, such as those engaged in crushing, grinding, washing, or other concentration.

19. MUNITIONS PLANT (116)

A place where war materials especially weapons and ammunition are manufactured.

20. NON MANVILLE ASBESTOS MANUFACTURING AND MINING (125)

All non Manville, manufacturers who mined, made, and sold asbestos products.

21. OIL AND GAS EXTRACTION (135)

Industries within the Oil and Gas Extraction sub sector operate and or develop oil and gas field properties. Such activities may include exploration for crude petroleum and natural gas; drilling, completing and equipping wells.

22. PAPER AND ALLIED PRODUCTS (118)

This group includes establishments primarily engaged in the manufacture of pulps from wood and other cellulose fibers and from rags: the manufacture of paper and paperboard; and the manufacture of paper and paperboard into converted products, such as paper coated off the paper machine, paper bags of plastic films and sheet.

23. PETROLEUM AND RELATED INDUSTRIES (114)

This group includes establishments primarily engaged in petroleum refining, manufacturing paving and roofing materials, and compounding lubricating oils and greases from purchased materials.

24. PIPELINES EXCEPT NATURAL GAS (136)

This group includes establishments primarily engaged in the pipeline transportation of petroleum and other commodities, except natural gas.

25. PRIMARY METAL INDUSTRIES (108)

The metal industry consists of five major metal industries.
Industries included within this group:

- Primary Metals
- Copper
- Iron and Steel Foundries
- Primary Aluminum (nonferrous metals)
- Aluminum Mill Products

26. PRINTING, PUBLISHING AND ALLIED INDUSTRIES (137)

This group includes establishments engaged in printing by one or more common processes, such as letterpress; lithography (including offset), gravure, or screen; and those establishments which perform services for the printing trade, such as bookbinding and plate making. This group also includes establishments engaged in publishing newspapers, books and periodicals, regardless of whether or not they do their own printing.

This group includes establishments manufacturing products, not elsewhere classified, from plastics resins and from natural, synthetic, or reclaimed rubber, gutta percha, balata, or gutta siak. This group includes establishments primarily manufacturing tires.

29. SHIPYARD (CONSTRUCTION, REPAIR OF SHIPS) (120)

A yard where ships and vessels are repaired or built.

30. STONE, CLAY, GLASS AND CONCRETE PRODUCTS (112)

This group includes establishments engaged in manufacturing flat glass and other glass products, cement, structural clay products, pottery, concrete and gypsum products and other products from materials taken principally from the earth in the form of stone, clay and sand.

31. TEXTILE MILL PRODUCTS (121)

Textile Mills are classified by the type of products or process. The major processes of textile production include yarn spinning, weaving, knitting and tufting. Some textiles are non woven and are produced by fusing fibers with heat or bonding fibers by using a type of glue.

32. TOBACCO PRODUCTS (138)

This group includes establishments engaged in manufacturing cigarettes, cigars, smoking and chewing tobacco, snuff and reconstituted tobacco and in stemming and redrying tobacco. Also included in this group is the manufacture of non-tobacco cigarettes.

33. TRANSPORTATION EQUIPMENT INCLUDING AUTOMOBILE AND AIRCRAFT (101)

Industries in the Transportation Equipment Manufacturing subsector produce equipment for transporting people and goods. Transportation equipment is a type of machinery. This sector provides manufacturing, repairing, overhauling and selling in support of all kinds of transportation equipment.

34. WATER TRANSPORTATION (139)

Industries in the Water Transportation sub sector provide water transportation of passengers and cargo using watercrafts, such as ships, barges and boats. The sub sector is composed of two industry groups: (1) one for deep sea, coastal and Great Lakes; and (2) one for inland water transportation. This split typically reflects the difference in equipment used.
