

Third Party Requests for Claimant Information

Due to the confidential nature of claim submissions, the Trust and its claims processor, Claims Resolution Management Corporation, will provide claimant information to third parties only in response to a valid subpoena issued by a court of competent jurisdiction or a valid written claimant authorization.

Third parties should not submit requests by e-mail, fax, or by telephone to the Trust or Claims Resolution Management Corporation regarding claimant submissions, as neither will respond to these e-mail, fax, or telephone inquiries.

Before responding to an enforceable subpoena or written authorization, the Trust will first send a copy of the subpoena or authorization to the claimant or, if represented by counsel, claimant's attorney, or otherwise notify claimant or claimant's attorney about the subpoena or authorization.
