

NARCO: IMPORTANT NOTICE RE DEADLINES FOR FILING CLAIMS – PLEASE READ CAREFULLY

NARCO TRUST CLAIMS THAT ARE NOT FILED OR ARE INCOMPLETE AS OF THE APPLICABLE DEADLINE WILL BE UNTIMELY AND NOT ELIGIBLE FOR COMPENSATION.

Please consult the [November 7th Supplemental Notice of NARCO Asbestos Trust Filing Deadlines](#) (the “11/7/16 Notice”) for details on the claim filing deadlines for certain claims.

Detailed information regarding your submissions to the NARCO Asbestos Trust (the “Trust”) can be found in eClaims. The below data points should help you determine whether a particular submission has been filed in accordance with the 11/7/16 Notice.

Claim Detail screen in eClaims

The documentation that must be submitted with a Proof of Claim Form is set forth in the *Supplemental Notice of Asbestos Trust Filing Deadlines*, posted on the Trust’s website on November 7, 2016. *Please review the list of Required Documents carefully to ensure that your claim includes all necessary documentation. Exclusive of certain exceptions as outlined in the 11/7/16 Notice, unless your claim is accompanied by all Required Documents, it will not be considered to be timely filed and will not be eligible for compensation.*

The following information is located on the Claim tab in eClaims under the “Detail” heading:

Registered Date: Date the claim’s Identifying Information (as defined in the 11/7/16 Notice) was filed with the Trust.

SOL Toll Date: Date on which the Proof of Claim Form and the Required Documents (as defined in the 11/7/16 Notice) were submitted to the Trust. If a date appears in the SOL Toll Date field, the Trust has determined that all Required Documents have been submitted, and the limitations period has been tolled. If no date appears in the SOL Toll Date field, the claimant has not filed the Proof of Claim Form and the Required Documents in accordance with the 11/7/16 Notice, and the limitations period has not been tolled.

Claim Type: Submissions with an “FLN” Claim Type have not yet submitted a Proof of Claim Form and the Required Documents in accordance with the 11/7/16 Notice.

PLEASE NOTE: Filing your claim in accordance with the 11/7/16 Notice and obtaining an SOL Toll Date does not mean that the claimant has met the applicable statute of limitations. Satisfying the requirements of the 11/7/16 Notice to toll the applicable statute of limitations and move from an FLN to a “claim” means only that the statute of limitations has been tolled in accordance with Section 4.1(a)(2)(E) of the TDP. Filing the Proof of Claim Form and the Required Documents only stops the applicable statute of limitations from running. Once the

claim has an SOL Toll Date, CRMC will review the claim to determine whether the claim has met the statute of limitations.

Timely-Filed Claims:

If a claim meets any of the tolling provisions described in (A) – (D) of Section 4.1(a)(2) of the TDP and was not barred by the applicable statute of limitations as of the date of the tolling, the claim will be treated as timely filed regardless of the date that it is actually filed with the Trust.

Alternatively:

Claims that were first diagnosed on or before the Petition Date (on or before 1/4/2002) will be treated as timely filed if they have a Registered Date on or before 5/1/2014 and an SOL Toll Date on or before 12/31/2017; and

Claims that were first diagnosed after the Petition Date (after 1/4/2002), irrespective of any relevant statute of limitations, will be treated as timely filed if they have an SOL Toll Date within three (3) years after the date of diagnosis or by December 31, 2017, whichever occurs later.

Offer Status screen in eClaims

The following information is located on the Claim tab in eClaims under the “Offer” heading:

Information regarding the timeliness of your claim can be viewed by selecting the “View Explanation of Category / Level” link located on the Offer Status screen in eClaims. The last item in the list tells you whether your submission has met the applicable statute of limitations. A “?” next to the statute of limitations item means that CRMC was unable to verify the applicable Disease Level and therefore, could not determine whether the claim meets the applicable statute of limitations. If the claim has not yet been evaluated for statute of limitation purposes, the “View Explanation of Category / Level” link will not be available.

Refer to the Claim Info screen, as well as other tabs within eClaims, for more information regarding your submission.
